**Subject:** BP Oil Spill - Whiting, Indiana

On March 24, 2014 at approximately 17:25 local time a sheen was discovered at the outfall of the BP Whiting refinery, in Whiting, Indiana. The waterway affected is lake Michigan and the size of the sheen is almost 5,000 square yards. The facility has deployed booms and contractors are en route to conduct the cleanup.

OSC M. Beslow is responding to the incident

Additional updates will be submitted later. For more information see NRC report number 1077610.
